Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. The amendment, including substitute specification, and remarks, filed April 10, 2007, are noted with appreciation.
2. Claims 1-27 are now pending.

Response to Arguments

3. The objections to the specification, the objections to the claims, and the rejection under 35 USC 112, 2nd Paragraph, set forth in the prior Office action (01/10/2007), are withdrawn in view of the amendment (04/10/2007).
4. Applicant's arguments (04/10/2007) with respect to the prior art rejections are have been fully considered but are not persuasive. The Examiner notes that the rejections of record are over the *combination* of Klingier and Maddox. With respect to this combination, Applicant asserts unexpected results. While this assertion is noted, it does not weigh against the *prima facie* case of record because it is unsupported by evidence. See MPEP 2145(I) and 716.01(c). Further, Applicant argues that none of the cited art recognizes the asserted advantages of the claimed invention. This is not persuasive because it is not necessary that the prior art suggest the combination to achieve the same advantage or result discovered by Applicant. See MPEP 2144. Finally, Applicant argues that the cited prior art teaches away from Applicant's claimed composition. This is not persuasive because the claim limitation do not expressly define a composition that excludes the twice maleated polybutadienes of Klingier. As such, this argument is not commensurate in scope with the claims.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7. Claims 1-5, 11, and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Klingier (EP 0 261 890 A2) in view of Maddox et al. (US 2002/0132059 A1) and *vice versa*.

8. These claims are rejected for the same reasons set forth under this heading in the prior Office action (01/10/2007) and continue to read on the claims, as-amended, as explained above.

Allowable Subject Matter

9. Claims 6-10 and 12-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. New claims 16-27 are allowed.

11. The following is a statement of reasons for the indication of allowable subject matter: The reasons remain the same as set forth under this heading in the prior Office action (01/10/2007).

Conclusion

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

13. The prompt development of clear issues in the prosecution history requires that applicant's reply to this Office action be fully responsive (MPEP § 714.02). When filing an amendment, applicant should specifically point out the support for any amendment made to the disclosure, including new or amended claims (MPEP §§ 714.02 & 2163). A

fully responsive reply to this Office action, if it includes new or amended claims, must therefore include an explicit citation (i.e., page number and line number) of that/those portion(s) of the original disclosure which applicant contends support(s) the new or amended limitation(s).
